1. 4.3.1 Release

1.1. Release Details

Embeddable Map build: 4.3.053.0

Date: 28th February 2014

1.2. Summary of Changes

Template built against the 4.3.52.0 platform build to support ArcGIS 10.2.1. This release also includes a number of bug fixes which are listed below.

1.3. Bug Fixes and Enhancements

1.3.1. Issues Fixed

Issue #	Description
35854	ES124697: Enable map to zoom to the "extent boundary" of a feature returned by a locator.
33155	ES123119: When injecting or embedding code into another page, the identify window is in the wrong position if the map is scrolled further down the page.
32784	ES121452: The simple-map-embed.css style sheet includes items to position the legend, however these customisations are not working.
32694	Adjust position of spinner on embeddable map search.
32693	ES122884: The z-index of the copyright message is 2000 and the z-index of the identify results is 1003, as a result the identify window sits behind the copyright message rather than above.

2. 4.3 Release

2.1. Release Details

Embeddable Map build: 4.3.009.0

Date: 2nd December 2013

Note: The build number has been updated as the template was rebuilt against the latest platform release.

2.2. Summary of Changes

Template built against the 4.3.10.0 platform update. No specific changes to the Embeddable Map Template.

3. 4.2.147.0

3.1. Release Details

Embeddable Map build: 4.2.147.0

Date: 2nd July 2013

Note: The build number has been updated as the template was rebuilt against the latest platform release.

3.2. Summary of Changes

Template built against the 4.2.169.0 platform update. No specific changes to the Embeddable Map Template.

4. 4.2 Release

4.1. Release Details

4.1.1. Full release

Embeddable Map build: 4.2.048.0

Date: 11th March 2013

Note: The full release included an additional bug fix which is marked with an * in the table below.

4.1.2. Cloud only release

Embeddable Map build: 4.2.026.0

Date: 18th February 2013

4.2. Bug Fixes and Enhancements

4.2.1. Issues Fixed

Issue #	Description
35299*	ES124864: onPageResizeHandler issue in IE6.
34835	In IE7 if you have 2 gazetteers the search button overlaps the pull-down.
34484	Identify does not show ArcGIS Online field Aliases.
34300	Feature layer Identify: when identify is performed with feature layers the visibility of the feature layer is not honoured, so it will identify all layers regardless of their visibility.
33262	Identify: Missing height parameter when using the identify function. Scale dependant layers will sometimes not return results as identify uses the height and width to work out the current scale.

5. 4.1 Release

5.1. Release Details

Embeddable Map Build 4.1.060.0
Date: 3rd October 2012

5.2. Bug Fixes and Enhancements

5.2.1. Issues Fixed

Issue #	Description
29761	When using the identify function, callout does not warn the user when no results are found.

6. Known Issues

6.1. Known Issues and Workarounds

Issue #	Description
44539	Legends for ArcGIS Online feature services are not displaying when there are multiple symbols per layer.
44360	Base map switcher does not work if image service is the default.
40758	ES128835 - Scale problem when using URL parameters to launch embeddable map.
34172	ES123905: Legend display issue – the legend swatches are not indented for a layer that has multiple types.
33133	The identify window is scrolled down when it first appears in Mozilla Firefox and Internet Explorer. It should start scrolled to the top-left. The problem only occurs on the first identify, subsequent identifies are OK.

7. Help and Contact Information

7.1. Documentation

For instructions on how to install and configure LocalView Fusion, please see the LocalView Fusion Installation Guide.

For the latest LocalView Fusion news, please see the blog:
<http://geoxchange.esriuk.com/localviewfusion-blog>

For instructions on site provisioning, content publishing and administration of LocalView Fusion, please see the user help within the provisioning system.

7.2. Contact

Esri UK provides extensive on-going support services to its customers. This service covers:

- Local support of Esri products
- Support of Esri UK products
- Support of bespoke applications developed by Esri UK

Support calls can be logged with Esri UK by contacting the Helpdesk:

Telephone: 01296 745555

Email: support@esriuk.com

The support service is available 9.00 am to 5.30 pm Monday to Friday, excluding English Public Holidays.

Support will require the specific build number of the LocalView version in order to diagnose a problem. To retrieve the LocalView build number go to Support page of the provisioning website, click on the About tab.
