

Esri UK Marketplace Product Life Cycle Status

The Product Life Cycle Support Policy is designed to help communicate to customers of Esri UK’s Marketplace Apps the technical support resources available during a product’s life span and to provide advanced notification of planned changes to available support options. Read more about this in our [Product Life Cycle Policy](#).

Notes:

- The version that is currently available in the Esri Marketplace has general availability. All previous versions are retired.
- The mature support and retired phase will only apply if Esri UK decide to retire the product. See the [Product Life Cycle Policy](#) for further details.
- Dates listed in a support column provide the date on which the product entered that support level.

App	Release Date	General Availability	Mature Support	Retired
QuestionWhere	October 2013	October 2013 -		
Markr	March 2014	March 2014 -		
MyNearest Builder	July 2014	July 2014 -		
UK Content	January 2015	January 2015 -
